VALLEY VIEW
2001 CHARDONNAY ESTATES

Mudgee is continuing to improve its reputation as a Premium grape growing region of New South Wales. The first Chardonnay vines on Australian soil were planted in Mudgee. The cool winters and hot summers allow the grapes to fully ripen and reach optimum maturity. This wine is a fresh fruit driven wine style and shows lifted tropical fruit flavours which are appealing. The palate exhibits a mouthfilling richness of flavour which is in balance with a crisp natural acidity. The peach and melon like overtones are obvious in the wine and adds to the pleasing aftertaste. An ideal wine to accompany seafood dishes. Serve slightly chilled.
